

# SALON D'HIVER

On view through April 29th

Sohn Fine Art is pleased to present "Salon d'hiver", a salon-style exhibition featuring innovative artworks by select Sohn Fine Art artists. View a broad range of work by each exhibiting artist presented in immersive vignettes, giving the viewer the experience of multiple solo shows on a smaller scale. Artworks will be switched out monthly, when new work will go on exhibit, so be sure to visit throughout the winter.

The exhibition is on view November 17, 2023 through March 11, 2024. Artists in the exhibition include Bastiaan Woudt, Saskia Boelsums, Greg Gorman, Chuck Kelton, Hildy Pincus Kronen, Anton Lyalin, Jeff Robb, Ormond Gigli, Edward Merritt, John Clarke, Cassandra Sohn, Valda Bailey, Dennis Lee Mitchell, Michael Namingha, Pops Peterson, Jonathan Prince, Patrick Sansone, Bert Stern, Anne Mourier, Rachael Talibart, JP Terlizzi, Shawn Theodore.

The exhibition is inspired by the pioneering and historic salon exhibit in France, Salon des Indépendents. This show was established in 1884 by the neo-impressionists as a revolt against the rigid traditionalism in the art world. Georges Seurat, Paul Signac, and Odilon Redon were a few of the founders. They created this alternative exhibition for innovatory or anti-academic art. The group's first show in the city of Paris included paintings by Paul Cezanne, Paul Gauguin, Vincent Van Gogh and Henri Matisse. This avant-garde art movement resulted in a long-standing outlet for new art in Paris. In 1903, the Salon d'Automne was founded as an extension of the Indépendents exhibit. The Salon d'Automne continues to be held in Paris annually every autumn and aims to encourage development in the fine arts both in France and abroad. The term "salon" was born from these fairs and is used today in reference to a large mixed exhibition. Our salon will debut this winter (hiver), a nod to the inspirational autumn show in France.

Artworks in the exhibit include contemporary photographs as well as sculpture and mixed-media made with unconventional materials created by both emerging and world-renowned artists, local and international. A common thread is an exploration of conceptual content while utilizing both traditional methods and cutting-edge technology in their processes. Many of these artists' breakthroughs have played significant roles in the evolution of fine art. Famous, iconic works will be on view as well as works that have never been presented to the public.
